Awards: Dean's List, Lincoln Technical Institute (2022, 2023); Chris Colasanti Award for Leadership and Bravery

PROFESSIONAL EXPERIENCE

Bogota Board of Education

Technology Support Specialist

Bogota, NJ

Jun. 2025 - Present

- **Provided district-wide technology support across 7 schools and buildings** for approximately 2,500 endpoints and classroom devices, including Chromebooks, Dell desktops and laptops, iPads, iMacs, and Newline interactive displays, serving roughly 1,000 students and 150-200 staff members.
- **Resolved 1,022 Incident IQ support tickets during the first year** by troubleshooting hardware, software, account access, network connectivity, printers, and classroom technology across the district.
- **Supported state-testing continuity for 1,000+ students** by maintaining device, Wi-Fi, and application availability across district workflows using the Google Admin console, Cisco Meraki, RealTime, GoGuardian, Aptegy Thrillshare, and Clever.
- **Strengthened identity and access operations** by executing onboarding/offboarding, Active Directory account administration, and Group Policy Object creation to align user access with school-district role requirements.
- **Restored secure visitor and student-release operations at an elementary school** by replacing an inoperable Raptor system with Securly Pass Visitor Management; provisioned a managed Google account, imported student and staff data via CSV, enabled check-ins and reporting, configured DYMO badge printing, and deployed an iPad kiosk for guardian verification and National Sex Offender Registry screening.

Essex County College

Student Systems Support Center & Computer Lab Aide

Newark, NJ

Sep. 2024 - Jun. 2025

- **Deployed and configured 500 Dell computers** across multiple campus labs using BitLocker, SmartShield, domain joins, BIOS configuration, printer mapping, Microsoft 365, and licensed applications.
- **Improved account-access recovery** across Newark and West Essex campuses by creating and managing QuickLaunch accounts, resetting locked or expired passwords, and restoring access to Microsoft Outlook, Microsoft 365, Moodle, e-textbooks, Zoom, and Teams.
- **Standardized lab recovery workflows** by helping maintain a golden image for system imaging and backup deployment while validating SmartShield server authentication and domain-based access controls.
- **Reduced classroom technology disruption** by resolving projector, printer, Windows 10/11, hardware, and network-connectivity issues through in-person, phone, and email support for students and staff.

South Orange Maplewood School District

A/V Technician Intern

Maplewood, NJ

Mar. 2024 - Aug. 2024

- **Supported district event operations** for board meetings, assemblies, and 2024 middle/high school graduations by setting up speakers, live-streaming equipment, cabling, A/V systems, and classroom computers.
- **Accelerated technician support workflows** by repairing ChromeOS and Windows 10/11 devices, assisting with Windows imaging through Quest KACE SDA, triaging SchoolDude tickets, and routing escalations to senior IT personnel.
- **Designed and assembled five secure mobile visitor-scanning stations** by mounting Dell monitors and mini PCs to Dell MFS22 stands, securing the assemblies to Luxor AV carts, attaching each mini PC with a Kensington lock, and installing dual Raptor scanners on opposing sides of each cart.
- **Deployed custom Windows 11 images** through the Quest KACE Systems Deployment Appliance (SDA), an enterprise endpoint imaging and deployment platform; included SwipeK12 in the image and coordinated with SwipeK12 support to complete application configuration.

TECHNICAL SKILLS

Endpoint & Systems: Microsoft Windows 10/11, Windows Server 2019, macOS, ChromeOS, Linux, iOS, Android, Microsoft 365, BitLocker, SmartShield, BIOS/UEFI configuration
